GLUTEN-FREE RECIPE

KIDS

Rearing of middle and large-sized breeds

For our young heroes who want to reach for the stars: A special growth formula for medium and large breeds. This low-energy recipe with a tailored protein and fat content supports a moderate growth rate, powerful bone development and healthy joints.

- From 8 weeks on
- Suitable for heavily-built dogs
- Supports cardiovascular functions and skeletal development
- Can be fed all the way through to adulthood

Skeletal development

A well-balanced calcium phosphorus ratio, vitamin C, as well as manganese and copper, which are easy to absorb, support a strong bone structure and healthy joints.

Moderate energy content

This formula has a mid-range fat content and is particularly suitable for normally active dogs.

A healthy heart

L-carnitine and taurine support cardiovascular functions.

*The recommended amounts are based on the weight of the adult dog. During growth a moderate growth rate based on the correct energy supply is ideal. If your dog is too big and too heavy, it is recommended to reduce the feed intake. An adequate supply of nutrients is assured even in smaller portions.

Complete feed for growing dogs.
