GLUTEN-FREE RECIPE

LAMB & RICE

Alternative for poultry meat

For our dear companions who want to take it slowly from time to time. Tasty lamb as an alternative to poultry meat. A light food for dogs with a normal or low energy requirement.

- With 25 % dried lamb meat as the only source of animal protein (corresponds to about 85 g of fresh meat per 100 g of dry food)
- Delicious and very wholesome
- Reduced-protein formula
- Valuable ingredients support a healthy and glossy coat

Skin & coat

A shiny coat and a healthy skin are signs that your dog is receiving the ideal food. This is assured by the presence of fatty acids, vitamins and organically bound copper and zinc.

Moderate energy content

This formula has a mid-range fat content and is particularly suitable for normally active dogs.

Protein-reduced

This formula has a reduced amount of protein and can therefore lighten the burden for the dog's metabolism and for its vital organs.
